

### Mountain Bike Trails

- Easy
- More Difficult
- Very Difficult
- Access Road or Track
- Walking Trail - (no bikes)

### Trails (Distances are approximate)

- Lenny's Loop (2km)
- Granite Grind (9kms)
- Bypass (2.2kms)
- The Ridge Loop (2.8kms)
- Snowy Hill - (Part of LM2M)
- LMT009 Emergency Marker

Lake Mountain has constructed over 20km of single track mountain bike trails.

**Granite Grind** (No. 7) is the main loop and is graded 'More Difficult', suited for intermediate riders.

**Lenny's Loop** (No. 6) is a short loop graded as 'Easy', suited for beginners.

**The Ridge** (No. 10) is a fun twisty loop also graded as 'More Difficult'.

**Bypass** (No. 8) is the only 'Very Difficult' trail.

All of these single track loops are situated south of the Village.

To the north of the village are approximately 30km of wide beginner trails, all are graded as 'Easy', and in winter these form the cross country ski trails.

**LM2M**

Lake Mountain to Marysville is a long term project to build a shared path for mountain bike riders and walkers from the Lake Mountain Village to the township of Marysville.

Stage 1 has been completed and allows cyclists and walkers to travel off road from the Lake Mountain Village as far as the Woods Point Road, a distance of approximately 13.5km.

The entire Stage 1 is shown on the map over.

Planning is currently underway for Stage 2 which will continue from the Woods Point Road to Marysville.

**Warning!**

All trail users do so at their own risk.

Mountain bike riding and bush walking involve risks and should be undertaken with care and regard for the riding and walking conditions at all times.

The track surface and obstacles may vary over time and may make trail use more challenging. Some Mountain Bike sections are technical, if in doubt inspect, walk or bypass any difficult sections.

Users are not recommended to enter the trails on severely wet or windy days.

Trees and branches may fall at any time, and hazards may be increased with wind, rain, ice or snow.
